BUNKERING

Focusing on QUALITY

IBIA takes the lead

INSIDE THIS ISSUE:

- Innovation - Are PM shaft generators game-changing technology?
- Mediterranean round-up - confidence returns
- Oil majors - adjusting to changing times

THE
ONLY OFFICIAL
MAGAZINE OF

THE INTERNATIONAL BUNKER
INDUSTRY ASSOCIATION

Island Oil Ltd

Island Oil Limited was established in June 1992, in Limassol, Cyprus as a physical supplier and trader of marine bunkers.

The company was quickly embraced by the industry and was entrusted by blue chip clients from local and international shipping markets, building a strong reputation as a reliable partner-supplier.

For many years, Island Oil has been the spearhead of what has eventually evolved as a group of companies with Island Oil (Holdings) Ltd, being the holding company.

Headquartered in Limassol, Island Oil is the flagship of a group of companies mainly active in the marine and domestic fuels sector. The company currently has physical supply stations under Island Petroleum Limited in Cyprus and Romania, share-holding in a fuel depot in Ukraine and additional offices for international trading in Odessa, Piraeus, Limassol, Constantza, Nice and Dubai.

The company is a recognized player in the global bunker market. This has been achieved through a client-oriented approach, strong financial management, controlled growth and a highly skilled and trained team of professionals.

Above all, we supply...

Peace of mind

The owned and operated oil-tankers are managed in-house by Petronav, accredited for ISM and ISPS by Germanischer Lloyd.

Island Oil has an accredited quality system that is continuously monitored and updated to ensure that all services and products offer the highest standards of quality and reliability.

Our commitment to quality is reflected in our ISO 9001:2008 certification by Germanischer Lloyd for the physical and trade supply of marine fuels and lubricants and the provision of ship-agency services.

Island Oil Ltd is a member of IBIA, CYMEPA and The Cyprus Shipping Chamber. ▲
